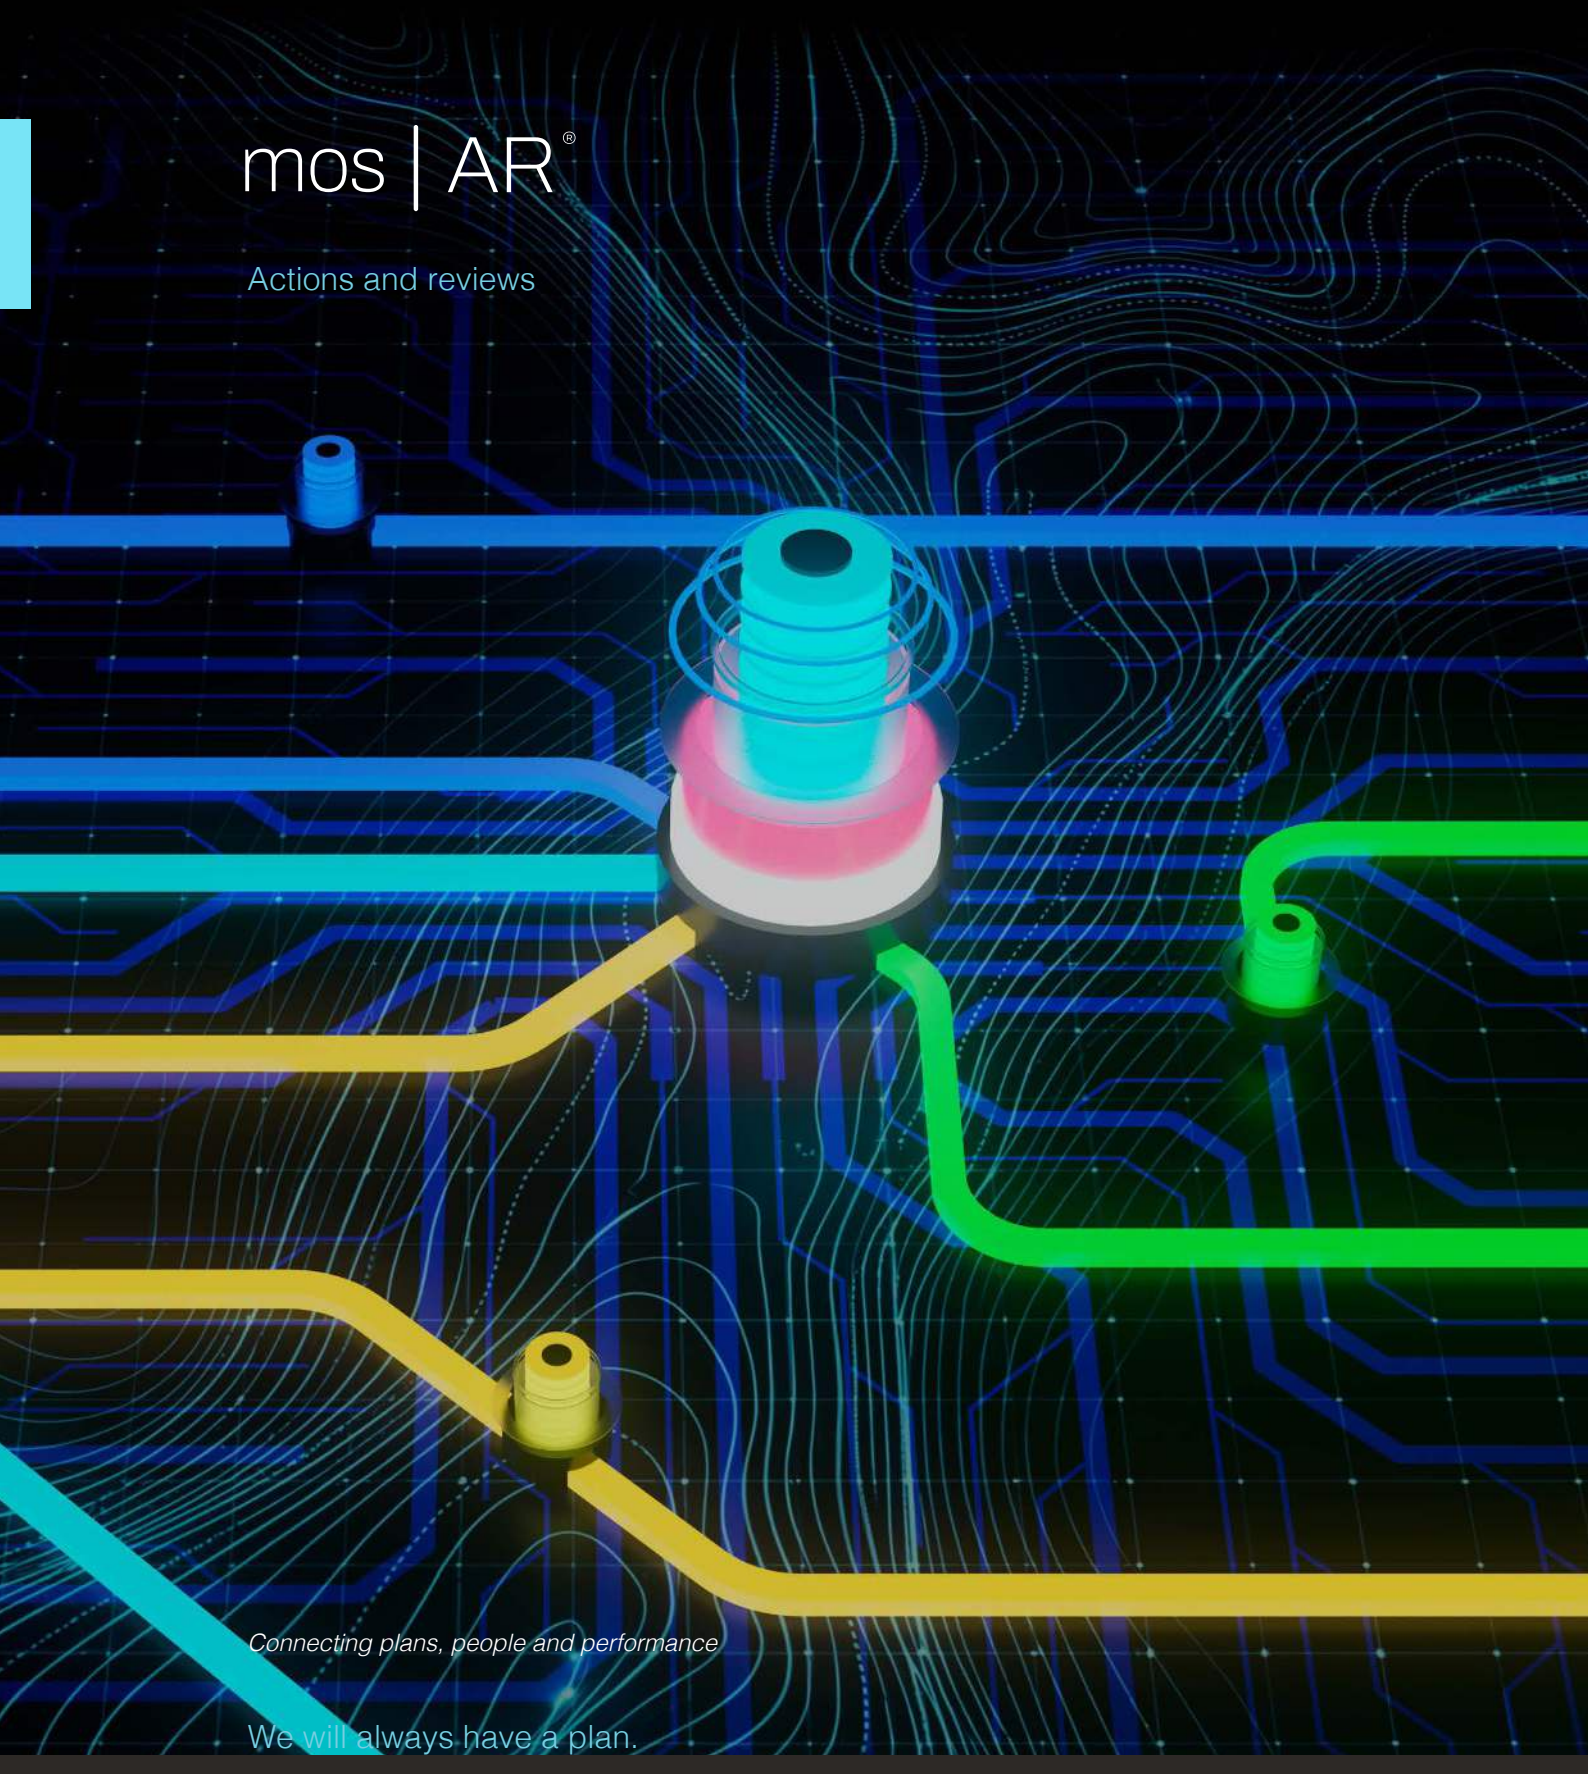
Actions and reviews



Connecting plans, people and performance

We will always have a plan.

Product status: In production

mos | AR®

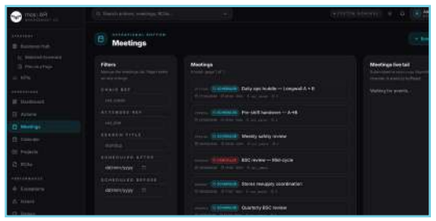
At Mapped Out Solutions, we understand that operational success depends on teams being aligned, actions being completed and leaders having confidence in the information they are working from. That is why we developed mos | AR® as a software solution designed to help organisations better manage meetings, actions, performance and accountability in one practical environment.

What mos I AR® offers

mos | AR® is built to help organisations connect operational priorities with everyday execution by bringing actions, meetings and performance visibility into one place.

Here's how it supports your operation:

- Improved accountability
  Track actions, ownership and progress in one place to help reduce missed tasks and improve visibility across teams.
- Better operational visibility
  Monitor key activities, priorities and performance measures through practical dashboards designed to support decision making.
- More effective meetings
  Support structured operational meetings with clearer visibility of actions, priorities and outcomes.
- Continuous improvement support
  Capture operational issues, investigations and corrective actions to help teams better understand challenges and improve performance.



mos I AR keeps every meeting, owner and action in one live register.

Key features for everyday use

- Live meetings
  Run structured meetings with clear visibility of actions, priorities and operational updates.
- Action register
  Track actions, responsibilities and deadlines in one practical environment to improve follow through.
- KPI visibility
  Monitor business and operational performance through practical dashboards designed to support visibility.
- Root cause analysis (RCA)
  Investigate operational issues and better understand contributing factors to support stronger corrective action planning.
- Exception & delay tracking
  Gain clearer visibility of operational challenges before issues escalate.
- Calendar & reporting
  Maintain visibility of meetings, activities and operational performance in one connected view.

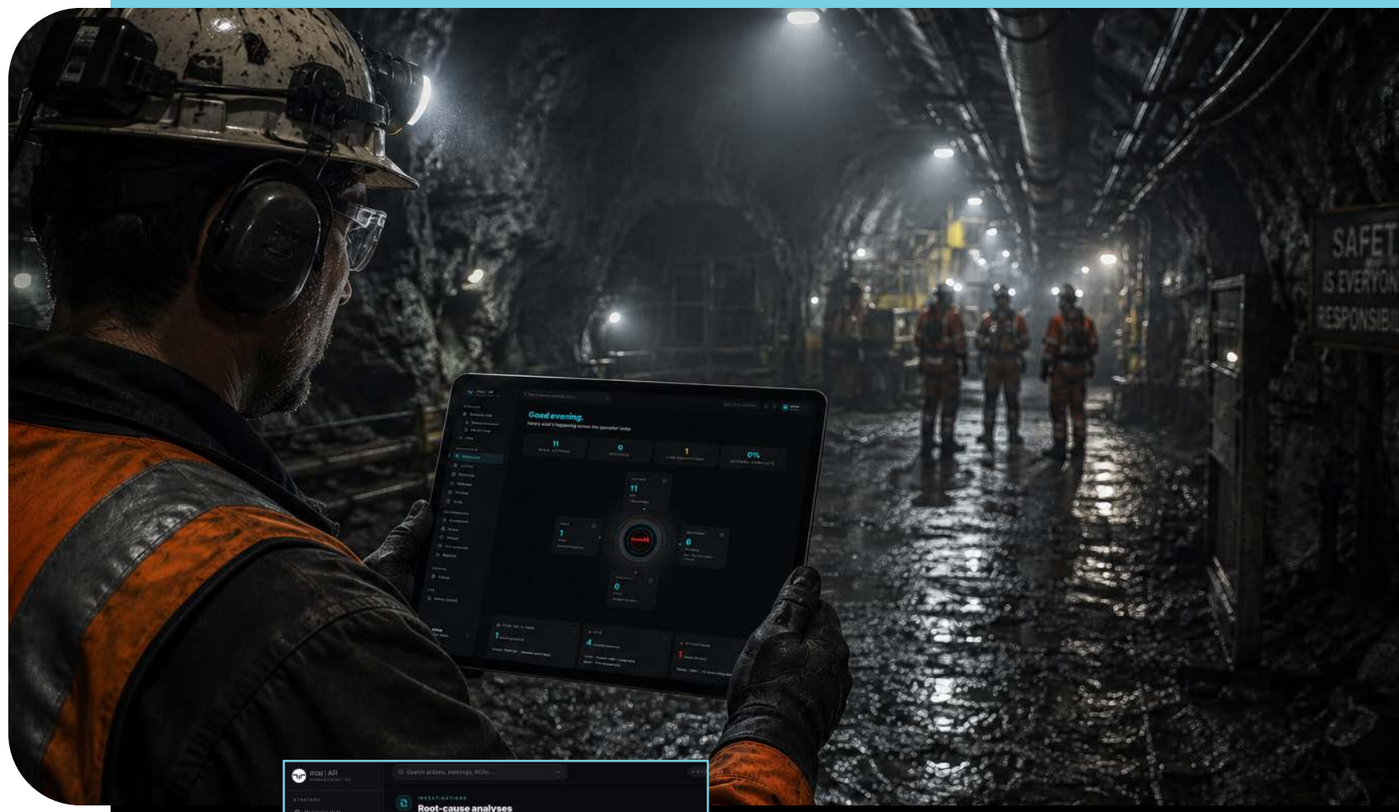
This software is about helping organisations stay aligned, accountable and focused on execution, not just reporting on performance.

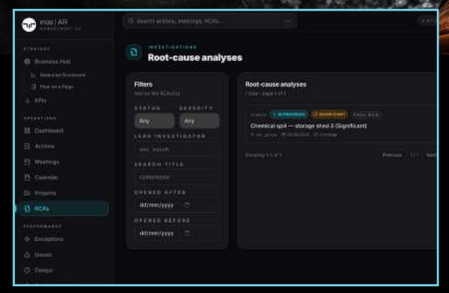
mapped out solutions

Why Choose mos I AR®?

mos | AR® has been developed to help organisations improve visibility, strengthen accountability and support a more connected operational rhythm.

- One place for actions and accountability
  Bring meetings, actions and priorities together into one practical environment that supports better follow-through.
- Better visibility across the operation
  Give leaders and teams clearer insight into priorities, performance and operational activity.
- Easy to use
  The platform is designed to simplify operational visibility into a format that is practical and easy to understand.
- Supports better decision-making
  Help teams stay informed with clearer visibility of actions, issues and operational priorities.
- Support when you need it
  Mapped Out Solutions provides training and ongoing support to help your team confidently adopt and use the platform.





Root-cause analyses - no more repeat failures

Plans, people and performance

With mos | AR®, organisations are better equipped to improve accountability, maintain operational focus and stay connected to the priorities that matter most. At Mapped Out Solutions, We Will Always Have a Plan, and we are here to help you do the same.
