mos | MinePlan OC®

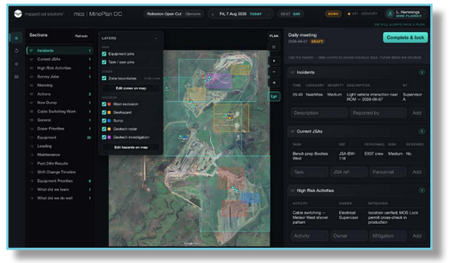
At Mapped Out Solutions, we understand that strong daily planning is the backbone of successful open-cut operations. That is why we developed mos | MinePlan OC®, bringing the morning planning meeting, live pit map and operational priorities into one digital environment, helping teams plan, coordinate and capture each day with greater clarity and control.

What MinePlan OC® offers

MinePlan OC® is built to help modernise the open-cut morning planning process by bringing operational information, equipment visibility and shift planning into one practical environment.

Here's how it supports your operation:

- **Structured daily planning**
  Support more consistent morning meetings through a clear process that helps teams review priorities, safety considerations and operational activity.
- **Live operational visibility**
  Bring together equipment, operational updates and site information in one practical view to support better planning decisions.
- **Improved shift communication**
  Support stronger continuity between shifts with clearer visibility of handovers, priorities and operational updates.
- **Better accountability**
  Capture actions, updates and key operational information in one place to improve consistency and visibility.



Morning meeting, fleet and pit map in one MinePlan OC view

Key features for everyday use

- **Morning meeting workflow**
  Guide teams through a structured planning process that supports consistency and operational focus.
- **Interactive site mapping**
  Visualise operational activity through a practical map environment designed to support planning and coordination.
- **Equipment fleet visibility**
  Monitor equipment activity and operational status to help improve site awareness and daily planning.
- **Digital shift handover**
  Improve communication between shifts with clearer operational notes and activity tracking.
- **KPI visibility & reporting**
  Track production performance and operational trends to help teams stay aligned to targets.
- **Flexible connectivity**
  Designed to support remote operational environments where connectivity may vary.

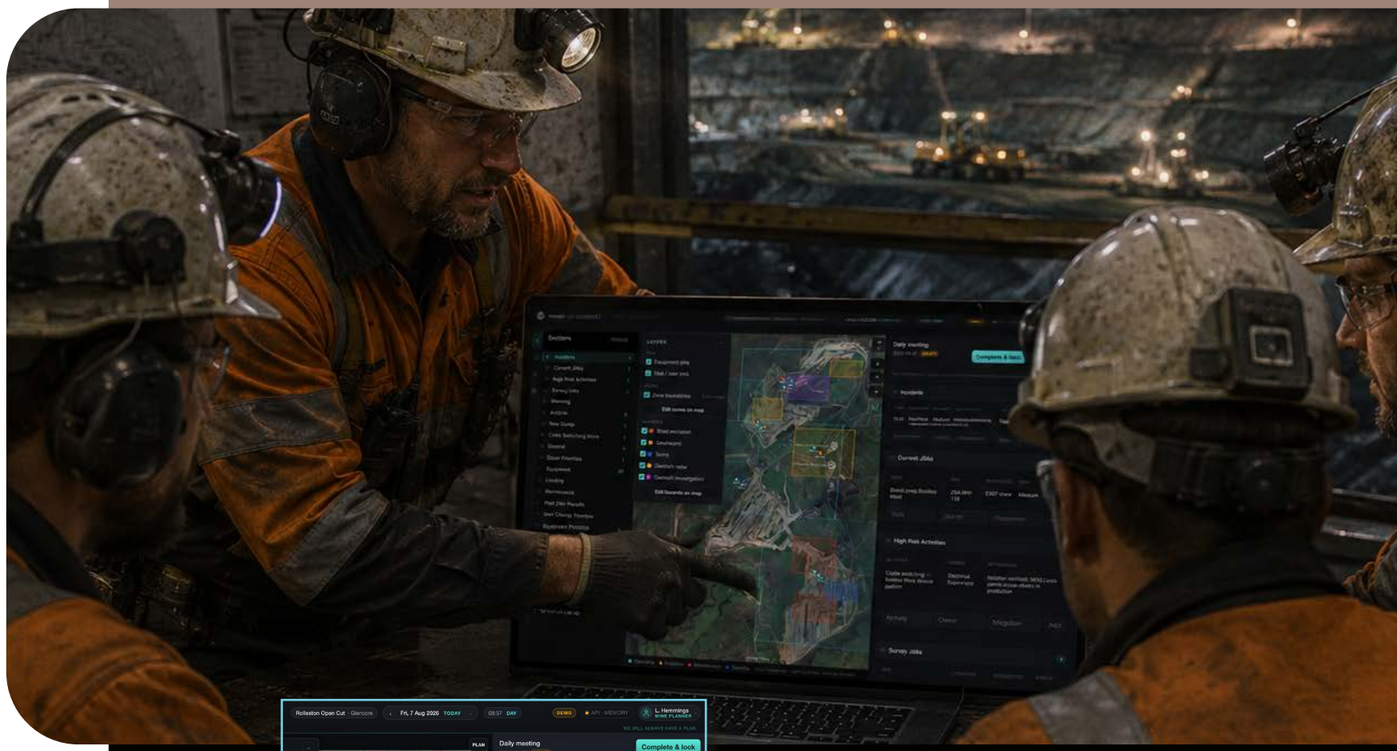
This software is about giving you practical tools to run a more structured, visual planning process every day, not just promises of transformation.

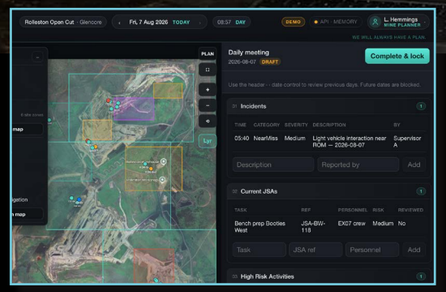
mapped out solutions®

Why choose MinePlan OC®?

MinePlan OC® has been developed to support open-cut teams in improving planning visibility and operational coordination without adding unnecessary complexity.

- **Built for open-cut operations**
  Designed specifically for the realities of open cut mining and the daily operational rhythm teams already trust.
- **Easy to use**
  The platform has been designed to present operational information in a practical, easy-to-understand format.
- **Better planning confidence**
  Improve visibility of priorities, operational activity and shift information to support more informed decisions.
- **Reduce manual processes**
  Move beyond disconnected whiteboards, paperwork and manual reporting with one connected planning environment.
- **Support when you need it**
  Mapped Out Solutions provides training and ongoing support to help your team confidently adopt and use the platform.





Run the daily meeting on the map, then lock the shift

Planning made simple

With MinePlan OC®, teams are better equipped to coordinate daily activity, improve communication and start every shift with greater confidence.
At Mapped Out Solutions, We Will Always Have a Plan, and we are here to help you do the same.
